Compact Size Control Unit & Lightest Handpiece

Varios 350 has been developed especially to offer a compact size portable control unit, allowing easy installation into any dental unit. It is simple to operate and suitable for a variety of clinical procedures - Scaling, Perio and Endo. Available in Optic and Non-Optic models.

One dial covers full procedure range (Scaling, Perio, and Endo).

At a turn of the dial, any one of 3 power modes can be selected, corresponding to the types of tips. The choices are "G" (General), "E" (Endo) and "P" (Perio) mode. The chosen mode can be visually checked via the colour coded indicator on the module facia. The power dial allows easy power adjustment. Additionally, by selecting the "P" mode, the absolute minimum stable power is activated, enabling the most efficient Perio treatment.

Ultrasonic Scalers Offering "One Does All" Versatility

In combination with an extensive range of tips, Varios Ultrasonic Scaler series introduce unprecedented "One handpiece does all" versatility for your every clinical application.

Optic VA-LUX-HP Optic Handpiece

Non-Optic VA-HP Non-Optic Handpiece

Lightweight and Compact

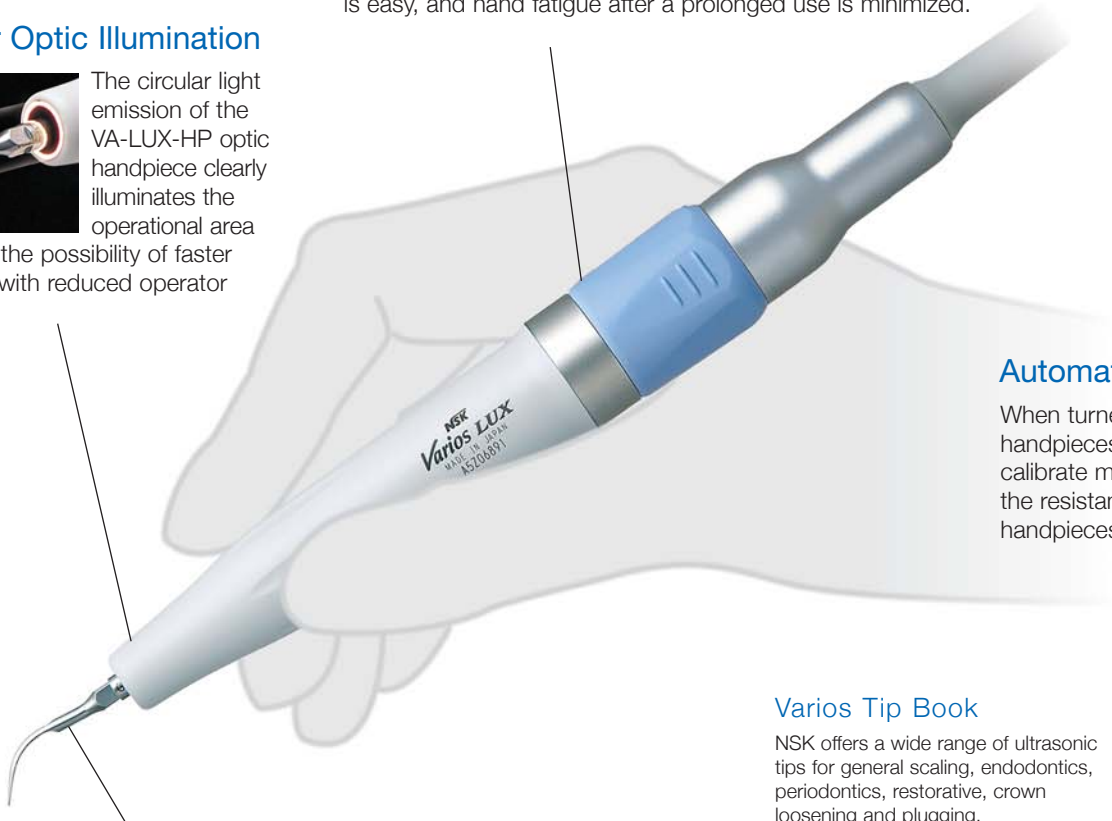

The small, easy-to-hold handpiece weighs just 33g (VA-HP), the lightest ultrasonic scaler handpiece in the world. Treatment is easy, and hand fatigue after a prolonged use is minimized.

Circular Optic Illumination

The circular light emission of the VA-LUX-HP optic handpiece clearly illuminates the operational area

facilitating the possibility of faster treatment with reduced operator stress.

Automatic Tuning

When turned on, Varios handpieces automatically calibrate micromotors to the resistance of attached handpieces.

Varios Tip Book

NSK offers a wide range of ultrasonic tips for general scaling, endodontics, periodontics, restorative, crown loosening and plugging. The application for each tip is shown in the Varios TIP BOOK.

Wide Tip Range

Varios ultrasonic scaler tips are available for many clinical applications.

Allows Simple Installation Into All Dental Units. Varios 350 Units Installation Examples

Right side of the dental mobile cart.

Behind the rear of the dental mobile cart.

Under the dental mobile cart.

On the dental console arm.
